Cruz Nunez

cruznunez.io   (919) 593 2828   nunez.a.cruz@gmail.com   github: cruznunez

Software developer with experience using Agile methodologies as a part of a development team.

TECHNOLOGIES

Ruby on Rails	ActiveRecord
JavaScript	SQL
HTML5, CSS	jQuery
D3.js	Test Driven Development
REST	Github

EXPERIENCE

THE IRON YARD, MAY - JULY 2015

Rigorous 12-week coding academy, 60+ hours per week. The curriculum's primary focus was on web development using Ruby on Rails, and also included significant experience with JavaScript, AJAX, and CSS.

Worked on a team of three to create Jam Connect (jamconnect.org), a web application where musicians can find other musicians they would like to work with and collaborate in online Jam Circles. I provided the majority of the database layout, the account setup, and the Jam Circle feature, which allows musicians to build songs together online, piece by piece.

CODE THE DREAM, FALL 2014

Introductory web development course. Created a Pinterest-style photo-sharing site using Ruby on Rails and Bootstrap. Selected by instructors as the top student in my class and awarded a scholarship to the Iron Yard coding academy.

EDUCATION

The Iron Yard, Durham, NC - Graduate, 2015
> Non-graded intensive program; please refer to references for further information regarding the quality of my work

Durham Technical Community College, Durham, NC - 2014 - 2015
> 3.6 GPA; Courses included Differential Equations, General Physics and Biology

The Iron Yard, Durham, NC - Graduate, 2015
> 4.4 GPA; 94th percentile on SAT math; 98th percentile on ACT math
